## UA50-30-00RA 220-230V 50Hz / 230-240V 60Hz

Products Low Voltage Products and Systems Control Products Contactors Block Contactors

General Information

**Extended Product Type:** UA50-30-00RA 220-230V 50Hz / 230-240V 60Hz

 Product ID:
 1SBL351024R8000

 EAN:
 3471522303806

Catalog Description: UA50-30-00RA 220-230V 50Hz / 230-240V 60Hz Contactor

Long Description: UA50..RA 3-pole contactors for capacitor switching, can be used in installations in which the

e peak current far exceeds 100 times nominal rms current. The contactors are delivered co mplete with their damping resistors and must be used without additional inductances (see t able below). The capacitors must be discharged (maximum residual voltage at terminals  $\leq$  50 V) before being re-energized when the contactors are making. Their electrical durability is 250 000 operating cycles for Ue < 500 V and 100 000 operating cycles for 500 V  $\leq$  Ue  $\leq$  690 V. The UA..RA contactors are fitted with a special front mounted block, which ensures t he serial insertion of 3 damping resistors into the circuit to limit the current peak on energiz ation of the capacitor bank. Their connection also ensures capacitor precharging in order to limit the second current peak occurring upon making of the main poles. The insertion of resistors allows to damp the highest current peak of the capacitor when switching on, whate ver its level. The UA..RA series 3-pole contactors are of the block type design. - Main poles: 3 main poles - Control circuit: AC operated with laminated magnet circuit - Accessories: a

wide range of accessories is available.
